SKILLS

HTML/CSS   Tailwind CSS   JavaScript   React.js

Rest API   Context API   Git   Git Hub

PERSONAL PROJECTS

MyEasyCart
- Online E-commerce website, which is fully responsive for all screen sizes, it is based on React.js. Many different libraries are used like React form and Icon library, styling is done with the help of Tailwind CSS. Dummy JSON API is used for fetching the data. For SignUp and Login "https://myeasykart.codeyogi.io" is used. Git and GitHub is used for backing up the code.

Booking-Anytime
- Online Travel/Hotel booking website, which is fully responsive for all screen sizes, it is based on React.js. Many different libraries are used like React date/time and Icon library, styling is done with the help of Tailwind CSS. Travel Payout API is used for fetching the data. Unsplash API is used for Images of different locations. Git and GitHub is used for backing up the code.
